BUILDING****NO COMPETITION  
ENVISAGED**

London, May 28.  
In the debate on the supplementary estimate of £10,300,000 for the new programme of naval construction in the House of Commons this evening, Lord Stanley, Parliamentary Secretary to the Admiralty said he shared the opposition's regret, at the necessity for this very considerable increase in naval expenditure and at the fact that the incessant efforts made by every British Government since the war, to get an agreed limitation of armaments had not been more successful. On the question of battleships, Lord Stanley said that he could only repeat they were not building against any single country but it had been proved by the mere fact that Germany, France and Italy were all building battleships, that day of battleships was not over and it was essential to start as early as possible in replacing the rapidly aging British battlefleets.—*British Wireless.*

**COAL MINES BILL****Redraft To Be Made**

London, May 28.  
The announcement arising out of the decision of the Government last Monday week not to go to a division on the second reading of the Coal Mines Bill after the opposition had developed on both sides of the House to the amendments which the Government indicated it would introduce in the committee stage was made by the Prime Minister in the House of Commons this evening. Mr. Baldwin said the Government was held by the principles of the Bill but had decided it must be postponed till autumn as sufficient time was not available after recess in the heavy Parliamentary timetable. The Government would make use of the interval to redraft the Bill which would include changes announced in the debate on the second reading.—*British Wireless.*

**QUEEN MARY****Broadcasts For Children**

London, May 28.  
Messages from the liner Queen Mary to-day record the run of 326 miles from Cherbourg was accomplished at an average speed of 28.73 knots. Passengers are unanimous in declaring her marvellously comfortable ship. They say there is almost complete absence of vibration and out of sight of the sea itself it is hard to believe one is aboard the ship. School children all over Great Britain will listen to to-morrow afternoon to a descriptive broadcast from the liner in mid-ocean specially arranged for schools. Sir Edgar Britten, Commander and Mr. Llewellyn Roberts, chief engineer, will go to the microphone and themselves tell the children something of their work and responsibilities.—*British Wireless.*

**GOVERNMENT OF  
INDIA ACT**

London, May 28.  
Newspapers in comment on the draft orders in Council under the Government of India Act issued yesterday express satisfaction it had been possible to fix April 1, 1937 as the date for setting up of the system of provincial autonomy in eleven British Indian provinces and for the separation of Burma. This decision has been facilitated by the Government's adoption of the report of Sir Otto Niemeyer on the allocation of certain revenues between the central and provincial Governments. The draft orders will be considered by Parliament shortly after Whitsuntide recess.—*British Wireless.*

**REPORT READY**

London, May 28.  
The Home Secretary at question time in the House of Commons announced he had received the report of the Judicial Tribunal appointed to enquire into the alleged leakage of budget information. Sir John Simon added the report would be available for distribution on Tuesday.—*British Wireless.*

**EMPEROR SAYS  
HE HAS NOT  
ABDICATED****Search For House  
At Jerusalem****HOPING TO COME TO  
EUROPE SOON**

Jerusalem, May 11.  
The Emperor of Abyssinia denies that he has at any time abdicated his authority. He made this declaration in an exclusive statement to me to-day, writes a correspondent.

He emphasised that he had left his country so as to be in a better position to plead Abyssinia's cause in quarters where the voice of Justice could be heard. For this purpose he took with him all the high officials of the central Government, but left behind all the machinery of the provincial and municipal Governments.

The Italians, he declared, used all varieties of gas without serious effect except in the case of hyperic, which destroyed the morale of the Abyssinian soldiers, who were entirely without means to attend to the terrible burns it caused.

The Emperor to-day spent a relatively quiet day. During the morning he allowed a film company to take a sound-film.

**CABLE TO GENEVA**

Referring to private property belonging to the Royal family left behind, the Emperor told me that the Abyssinian Government had respected all the private property of Italians. It is presumed that he expects the same treatment from the Italians towards Abyssinian property.

The Emperor declared that from the outset he considered that economic and financial sanctions, which themselves were far from complete, would be ineffective by themselves, and he always pressed for their intensification.

The Emperor cabled at length to Geneva in view of to-day's sitting of the League Council, and also spoke by telephone to London and Paris.

All day there was a steady procession of passengers to the Emperor's hotel carrying articles with which members of the Royal party could replenish their wardrobes.

It is obvious that the Emperor contemplates going to Europe in the very near future, as he is searching for a private house in which to instal his family.

**CORONATION DATE**

London, May 28.  
It is announced in the London Gazette to-night that the Coronation of King Edward VIII will take place in Westminster Abbey on Wednesday, May 20 (122) next year. The date was formally approved by His Majesty at a meeting of the Privy Council this morning at Buckingham Palace which was attended by several Cabinet Ministers, the Archbishop of Canterbury and Earl Marshal. To-morrow morning, the Coronation will be proclaimed by Herald at St. James Palace, Charing Cross, Temple Bar and Royal Exchange.—*British Wireless.*

**NEW COLONIAL  
SECRETARY**

London, May 28.  
The King has approved the appointment of Mr. W.G.A. Ormsby Gore as Colonial Secretary in place of Mr. J.H. Thomas who resigned last Friday. Mr. Ormsby Gore has been a member of Parliament without interruption since 1910. He had been first Commissioner of Works in the National Government since 1931. He was the Under Secretary for Colonies from 1922 to 1924 and again from 1924-1929.—*British Wireless.*

**ENGINEERING AND BUILDING****MARINE INSTALLATIONS****Some Varied Problems**

The problems presented by motive power required for marine purposes are of a varied nature, and each must be considered on its merits.

In the case of fishing craft the method of working has to be studied as different sections of the coast have their peculiarities in this respect. For instance, the Cornish fisherman works on the starboard side of his vessel which means a centre propelling engine, with possibly a smaller unit for the long hours of slow running when paying out the line fitted on the port side. Even in the case of twin screw propelling engines the starboard engine is quite close to the centre of the vessel. Static pull rather than speed is the consideration where tugs are concerned and as accommodation is not of paramount importance the space available for machinery is a large percentage of the hull. The comfort of passengers in launches, should be carefully studied which means that engine room space must be kept to a minimum. The general cargo vessel and coaster whilst being of a slower type with large hull does not usually have a long engine room, as the cargo space must be kept to the maximum possible.

Where a conversion from all sail to oil engine power is being made, the stern tube can usually be accommodated by boring out the rudder post as these vessels are mostly of wooden construction. If the rudder post is too short, hogging pieces secured to the keel and rudder post will give the necessary support. The rudder will have to be cut away to form the propeller aperture and any loss of steering area can be compensated for by an addition to the outer edge of the rudder. As the extra weight of machinery will give an increased draft a similar weight must be removed from the ballast packed around the keel. Suitable engine bearings of substantial proportions will be necessary, and to ensure rigidity

these must be well cross-checked and kneed.

**REPLACEMENT**

The replacement of an existing power unit resolves itself into the question of how many of the existing fittings can be used again to suit the new unit. A new propeller of suitable diameter and pitch for the new conditions will no doubt be required and if the propeller shaft is not too small this, together with the stern tube need not be replaced. For twin screw vessels where the shaft centres are fixed the layout of the machinery may not quite be as good as that for a new vessel. Engine seatings invariably require some alteration, but with care this can be kept to a minimum. Where a single screw vessel is being converted to twin screw, hogging pieces can be fitted to a wooden vessel to take the stern gear and in the case of a steel vessel bosses built into the frames, with possibly one spectacle frame are necessary. Care should be taken that the existing air receivers, fuel tanks, and other components, are capable of any fresh demands which may be made on them.

A new vessel gives better scope for an ideal installation arrangement but here again the space available is not unlimited and every effort should be made to give a compact arrangement consistent with accessibility.

The question of engine operation from the deck is one which is rapidly coming to the fore and in this connection we give an illustration of how this has been embodied in the bridge telegraph of a tug which is equipped with a Petter Atomic Marine engine of the direct reversing type, developing 185 B.H.P. The engine revolutions and direction of rotation are indicated on the tachometer mounted in front of the steering wheel, and the pedal at the foot of the telegraph column controls the air for starting purposes. **ENGINEERING NOTES  
FROM GREAT  
BRITAIN****LIGHTING IN  
INDUSTRY**

The importance of light in industry is recognised to-day more than it has ever been. At the same time there is a good deal of misconception prevailing as to just what are the fundamentals of good industrial lighting.

Whatever lighting is chosen for industrial premises there are certain things at which it is necessary to aim. The lighting must be planned, no matter whether daylight or artificial, to increase production, to avoid waste and mistakes, to cut down accidents to the minimum and to promote the comfort and well-being of work people.

**AN ALTERNATIVE TO  
SUNLIGHT**

As man lives in a world lighted by the sun and with a physiological make-up adapted throughout the ages to suit the conditions of sunlight, it is almost inevitable that people should look on sunlight as the most satisfactory of all kinds of light. But when attempts are made artificially to imitate sunlight, either in intensity or colour value, it is found that the cost is prohibitive, except for comparatively minute areas. Science, therefore, has sought ways and means of finding an alternative to daylight, which can be applied to the large roofed areas of industrial buildings. Experiments and actual trials of the latest and most remarkable source of artificial light, the Osira, electric discharge lamp, invented and developed by the General Electric Co., England, have proved that an economical source of lighting is now available which is, in many cases, more useful to industry than sunlight.

**THE IMPORTANCE OF  
DEFINITION**

Whereas in the past almost every form of light was the result of raising matter to a high temperature, this lamp employs quite a different principle. Mercury vapour and rare gases, enclosed in a glass tube, allow the passage of an electrical discharge—a continuous lightning flash, as it were. As the current passes, the molecules are highly agitated and give out radiations in the form of light.

The Osira lamp gives the bulk of its radiations in the yellow-green-blue range, and by a fortunate coincidence the materials, machines and products of industry are, to a very large degree, of a character which can be most easily seen by this coloured light. It is claimed, for instance, that the introduction of this lighting has brought about an appreciable decrease in rejected parts.

In addition to improved vision, this lighting is also extremely efficient from the point of view of direct cost. On a lumen-watt basis the lamps give nearly three times the light of a gas-filled tungsten filament lamp, and, in addition, the burning life averages 1,500 hours, while it is less susceptible to harm from continuous vibration.

**NEW MEMBER OF

**PUMPING  
MACHINERY****For The Golf Course**

Extracts from an article which appeared in "Golf Illustrated" and written by Mr. R. A. Swainson, A.M.I.E.E., are reprinted below and will, we are sure, be of interest to our readers.

Few golf clubs realise that the water pump is practically the only multipurpose machine on the course.

There are clubs which find work for their pump all the year round. In the spring and autumn this machine is called upon for the watering process; in the summer it is in everyday use for watering; in winter there is draining to be done, and at any moment the pump may be called upon to deal with an outbreak of fire.

Notwithstanding the drought of the last three seasons, some golf club revenues have considerably increased where such clubs have kept their greens in good condition by judicious watering.

**WHEN GREENS DRY**

Where the greens have been left to dry up, not only has the revenue gone down, but heavy expenses have been incurred in re-turfing. This question of watering requires very careful consideration or more harm than good may be done to the greens.

One often hears the remark "there's nothing better than the rain," but this has been proved to be entirely erroneous. Amazing results have been obtained by watering the greens from surface water ponds or a stream which has been formed into a pond by use of a dam. Here we have water which has been sun-warmed and brought to a temperature normal with the atmosphere, so that when applied to the greens there is no danger of chilling the fine leaf tissue, which the green-keeper is so anxious to encourage. A still more important advantage of using surface water is that it contains the salts and minerals indigenous to the land, and holds in suspension the natural fertilising elements. It will be realised that clubs having a small stream or pond on their course are extremely fortunate, and are acting unwisely in not making use of such a supply.

A good quality uninkable rubber hose of 1-in. bore will cost approximately tenpence per foot, while galvanised iron pipe will cost approximately fivepence per foot.

**DETERIORATION**

Deterioration of good quality rubber hose is nothing like the prevalent idea; clubs which have had rubber hose fifteen years still find it in good condition. Water preserves rubber, but oxidises iron or steel. The deciding factor in the choice of iron pipe or rubber hose is the position of the greens relative to the water supply. A scale plan of the course is invaluable, and in cases where a course has several ponds it may be possible to reach any green from the adjacent pond with one reel of hose. If only one pond is available a run of iron pipe having connections at positions within a reel's length of any green would be found satisfactory.

Since grit and sand may be drawn into the pump with the water, avoid constructions which are irreparably damaged by crovie liquids. The reciprocating piston or ram pump is found to stand up well to such use. Leaves, weeds, etc., may be drawn into the pump and foul the valve, so that it is necessary to have quick access to the inside of the pump to clear the valves without the assistance of a skilled mechanic. A good pressure of water is required at the sprinkler to throw a high shower, and pressure is also required to force the water through the pipe, so that the pump must be capable of delivering the required amount of water at a pressure of at least 100 lbs. per square inch.

## BERLIN BECOMES MORE CRITICAL OF QUESTIONS

"No Conditions For Return To Geneva"

### EFFECT OF ITALIAN VICTORY

Berlin, May 10. Germany's attitude towards the British questionnaire, which began on Saturday by being extremely non-committal, has during the week-end taken a more critical turn.

The British decision to publish the questionnaire was much resented here, and a suggestion was eventually made to the Press from some central source that the reason for this British decision was to divert public attention from the Abyssinian question. "Statements to this effect were frequently made yesterday in every newspaper published in Germany."

### BRITISH "DIFFICULTY"

What is regarded as the difficult British international situation—especially in respect to the future of the League of Nations—has obviously influenced the more recent comments on the questionnaire.

The "Boersen Zeitung" says, for instance, "In the questions about the pact of mutual assistance the pretence is still maintained that the position of the League of Nations, which in fact, is cracking at every joint, is still so strong that conditions can be imposed upon Germany in respect of her return to Geneva."

"This is evident from the last paragraph and the question which speaks of 'matters which will have to be raised before the return of Germany to the League of Nations comes under discussion.' The impression is given that the compiler of the questionnaire had by mistake used the phraseology of the Quai d'Orsay, whereas British Ministers have declared the first task to be that of bringing Germany back to Geneva as soon as possible."

Seizing the official cue, the writer of the article continues: "In view of the defeat of the League of Nations and of the idea of collective defence, in view, moreover, of the general feeling of helplessness on what is to be done about Geneva, this kind of interest in the possibility of harmonising the German proposals with the Covenant of the League can only be due to the desire to create a diversion."

### GERMANY'S LEAGUE EXPERIENCE

"Germany," he concludes, "has had her own experience of Geneva for the last 14 years. If she is to return care must be taken to ensure that no further abuses are permitted. In making this demand Germany will doubtless find on her side the other States which have been victimised in the Abyssinian business."

It seems certain that the German reply will not be made for several weeks, during which careful attention will be paid to the development of the general international situation.

The character of the reply will probably be in any case critical and likely to protract the period which must elapse before negotiations can actually begin. Furthermore, it will be influenced by the degree to which Great Britain in the interval appears in German eyes to have regained leadership in Geneva by proposing a clear plan for the reform of the League.

Mortal mind-reading and Immortal Mind-reading are distinctly opposite standpoints, from which cause and effect are interpreted. ## THE NOTE TO BERLIN

Points In Doubt

WILL TREATIES BE "GENUINE"?

London, May 7.

The questions put by the British Government in order to elucidate certain points in the German Government's peace proposals were issued yesterday in a White Paper. The questions are contained in a letter from Mr. Eden to Sir Eric Phipps, the British Ambassador in Berlin. A copy of the letter was to have been given by the Ambassador to Herr Hitler, but in the absence of the Chancellor it was delivered to the Foreign Minister, Baron von Neurath.

The British Government, taking the view that the "greatest possible precision is desirable before general negotiations can open," ask:

Does Germany regard herself as being in a position now to conclude "genuine treaties"? Treaty negotiations would be useless if one of the parties later felt free to deny its obligation on the ground that the treaty was made under duress.

What view does Germany take today of the continued maintenance of the remaining operative clauses of the Versailles Treaty—or of any agreement which could be said to have had its origin in that Treaty?

Does Germany recognize and intend to respect the existing territorial and political status of Europe, except in so far as this might be subsequently modified by free negotiation?

Does Germany agree to accompany a Western Air Pact by a regional agreement for limitation of air strengths?

Would the German Government agree to interpret the phrase "the States on Germany's south-eastern and north-eastern frontiers," with which non-aggression pacts are proposed, as covering also the Soviet Union, Latvia, and Estonia?

Will the German Government give some definition of the phrase "the separation of the Covenant of the League of Nations from its basis in the Treaty of Versailles setting"?

## CHURCH WHERE NOT A WORD IS SPOKEN

Congregation Is Deaf And Dumb

London, May 11.

Not a word was spoken at a church service attended by 250 people yesterday.

The first of the services at St. Bede's Church, Clapham-road, designed especially for the deaf and dumb, and dedicated by the Bishop of Southwark on Wednesday, was conducted by the resident chaplain, the Rev. E. R. Sowter.

The congregation, who receive a pile of hymn books, Bibles and prayer books from the silent vergers, can neither speak nor hear, so the church is built so that everyone who attends a service there see.

The door is raked, or raised at the back of the church, like a cinema, so that those at the back can see the pulpit. There are no east windows, as a facing light would fall into the eyes of the congregation and dazzle them.

From the misty blue roof hang great silver stars, concealing flood lights trained on the altar.

There is no music. Everyone "speaks" the hymns and psalms on the fingers.

### PULPIT SPOT-LIGHT

No one shuts his eyes in prayer, but kneels watching the chaplain pray with his hands. The responses are given on the fluttering fingers of the deaf and dumb as quickly as by the voice of the most ardent churchgoer who can hear, and at the end of the Prayers and Collects 250 pairs of hands silently make the sign for "Amen."

During the sermon the preacher can switch another spot-light from his pulpit, so that his "talking" hands are still more easily visible.

Groups of deaf and dumb Girl Guides and Boy Scouts held church parade yesterday.

After the service the leader stood forward and repeated the oath on his fingers. Forty raised hands testified that the Scouts and Guides understood.

# Quickest Healer for all Festering Sores and Itching Eruptions

If you suffer from a disfiguring, distressing skin eruption, medical science cannot offer you a surer, quicker remedy than this simple Cuticura treatment which is the result of long research by a physician specializing in the treatment of skin diseases.

### FOLLOW THESE DIRECTIONS

Wash the affected part night and morning with Cuticura Soap and hot water. Dry gently and apply Cuticura Ointment. This daily treatment relieves itching and allays inflammation at once. The soothing, healing, antiseptic Cuticura penetrates to the depths of the eruption. It destroys the lurking germs which keep the disease active, it heals the festering sores and steadily establishes a healthy condition of the skin which leads to complete recovery. The comfort and benefit even from the first application will amaze and delight you.

AT THE QUEEN'S

The usual trail of complications, but this time with a dress shop as the background for all the ensembles, song and dance numbers, which accompany the musical picture occur in "Colleen," the film now playing at the Queen's Theatre.

The presence of Dick Powell, Ruby Keeler, Jack Oakie and Joan Blondell in the cast ensure plenty of pleasurable entertainment for those who like a picture which makes no pretensions at a serious plot, but relies rather on the ensembles, effective in this film, the dance numbers, also of a pleasing character, and the humorous situations, to produce its effect. Dick Powell and Ruby Keeler, of course, occupy the central positions, but a humorous background to the picture is provided by the antics of the other pair, Jack Oakie and Joan Blondell. Hugh Herbert is convincingly dithering as the eccentric uncle, although eccentric is rather too weak a word to describe his weird antics, which certainly give a realistic impression of insanity.

The supporting programme includes a thoroughly entertaining Colour Cartoon entitled "Billboard Frolics."

See "Colleen" by all means as the picture is a first rate entertainment.

## "MILKY WAY"

SUNDAY AT THE ORIENTAL THEATRE

Harold Lloyd's comedy, "The Milky Way" will be shown at the Oriental Theatre on Sunday, Monday and Tuesday. Laughter strews the path of the spectacled comedian in his timid progress from the uneventful life of a milkman to the pulsing career of a middleweight fight champion. There is a gorgeously goofy idea in this picture. The hilarity is unabated. Lloyd is cast as a poor sap of a milkman, an obscure fellow scared of his own shadow. He steps into the limelight by ducking away from a blow aimed at him by a drunken crony of the middleweight champion. The champ gets the sock and goes down for the count. Reporters pounce on the milkman. He brags, and is egged on into declaring that he knocked out the great undefeated champ.

This catapults Lloyd into fame as a contender. A promoter collars him and puts him into training. He is forced to fight the champ. There is going to be a massacre—with the ex-milkman scheduled to be on the receiving end of the punishment.

It would be spoiling the fun to tell you what happens when trembling Lloyd, spectacles and all, is shoved into the ring. William Gargan and Lionel Stander do exceptional work trying to knock the comedian's block off. They send their hefty right and lefts from many angles, but never connect. Fine performances are also given by Adolphe Menjou, Verree Teasdale, Helen Mack, Dorothy Wilson and George Barbier.

## "CRIME AND PUNISHMENT"

Crime doesn't pay and it never has.

That is the opinion of Edward Arnold, star of "Crime and Punishment," the picture of Dostoevsky's great novel, "Crime and Punishment," showing to-day at the King's and Alhambra Theatres. He is seen in the picture in the famous role of the Inspector.

"To-day, of course," says Arnold, "the criminal knows that he has little chance against the highly scientific and mechanized law enforcement agencies, what with their fingerprint systems, microscopes, radio cars and so forth."

"Before the days of modern detecting, the criminal perhaps had slightly a better chance to get away with his deed, but still the odds were overwhelmingly against him. For then, as now, he still had to contend with conscience and criminal psychology, although it may not have always been called just that."

Besides Arnold and Lorre, the cast of "Crime and Punishment" is made up of such players as Marian Marsh, Tala Birell, Elizabeth Risdon, Robert Allen, Douglas Dumbrille, Gene Lockhart, and Mrs. Patrick Campbell. Josef Von Sternberg directed. S. K. Lauren and Joseph Anthony did the screen treatment.

## MR. JOSEPH'S GENEROUS GIFT

To The New Territories Agricultural Association

BUILDING AT FANLING

By the generous gift of Mr. J. E. Joseph, who is well known for his many contributions to various charitable institutions, the Association is now promised a suitable building for its offices, educational efforts and other activities experimental and practical.

Mr. Joseph has been greatly interested in agricultural progress for many years, and finding the Association in need of a suitable headquarters, himself very kindly offered to present a building, and purchased a site for its erection. This munificent gift will help forward the work of the Association very greatly, and it is a welcome encouragement to those who have patiently persevered in the work of trying to promote co-operation amongst the peasant farmers and to better their lot in life.

This building has been well designed and will be an outstanding feature of the landscape on the New Territory Road where it passes the Fanling Railway Station.

It will be a monument to the generosity of one of the public benefactors in this Colony. The work will be begun as soon as the plans are passed by the Government. (Contributed.)

## SO RED THE ROSE

The first important Southern picture to come from Hollywood in years, "So Red the Rose," was seen at the Star Theatre last night.

The star of the picture is Margaret Sullivan who, it is interesting to note, is related to Robert E. Lee on her maternal side. Miss Sullivan plays the role of a gracious, though headstrong Southern belle who is caught up by the need of her people when the war comes. But the man she loves, and to whom she is pledged, has different ideas on the subject. He is unable to arouse in himself the fire of patriotism, and his actions precipitate a tense and touching dramatic situation that gives life and significance to the picture.

Miss Sullivan's performance as the heroine, Vallette, is easily her best to date. Charming in costumes of the period, Miss Sullivan makes Vallette a vital, sympathetic, interesting young woman.

Randolph Scott plays Duncan, the man in love with Vallette. Other important roles are in the expert care of Walter Connolly, Elizabeth Patterson, Janet Beecher and Harry Ellerbe.

## BOULDER DAM

The Warner Bros. production "Boulder Dam," which colourfully exploits the exciting incidents connected with the construction of the mighty power project, is due shortly at the Queen's Theatre, with Ross Alexander, Patricia Ellis and Lyle Talbot in the leading roles.

Alexander and Miss Ellis have the romantic roles, with Talbot portraying the "heavy" role of rival for the love of the pretty dam singer, played by Miss Ellis.

The picture is crammed with dynamic drama, daredevil action, heroic deeds and thrilling incidents in addition to its romance. Miss Ellis also adds a colourful touch to the picture by singing two songs specially written for the production by the noted song team of Morb Dixon and Allee Wrubel.

The story concerns an automobile mechanic, cocky and sure of himself, but who shirks his work at every opportunity. In a fist fight with his boss, the latter falls and strikes his head in such a way that it kills him.

The mechanic flees, gets to the "Boulder Dam" in his wanderings, and there meets the pretty dam singer, and is inspired by love to make something of himself. He is recognized by his rival, however, and his hopes of happiness seem blasted until an unforeseen, and most unusual incident occurs.

many who constantly advise the use of "Bisurated"

trouble is caused by acidity, and the reason why  
"Bisurated" Magnesia gives quick relief is that it in-  
stantly neutralises excess acid and soothes, heals and  
strengthens the inflamed stomach lining. Nothing could  
be simpler, safer or surer. If you suffer with indigestion

Thursday next, at 2.30 p.m.Both Mr. Borner and the taxi  
driver pleaded "not guilty."Traffic Sergeant Scrimm said  
that he had two European wit-  
nesses besides the taxi-driver,  
while Mr. Borner intimated that  
he had one European witness.**THEFT OF  
TROUSERS****EXEMPLARY BOY'S  
LAPSE**A man who possessed a splendid  
recommendation from the Military  
authorities, Bowen Road, and who  
had been employed at Whitfield  
Barracks for the past two years,  
appeared before Mr. E. Himsforth  
at the Kowloon Magistrate's Court  
in answer to a charge of theft of a  
pair of grey flannel trousers, the  
property of Pte. Scott, R.A.M.C.  
Lo Sau, 30, described as a room  
boy, pleaded guilty, and was fined  
\$10.The theft was alleged to have  
taken place on or before April 3.  
Detective Sergeant Haynes of the  
Water Police, said that, as a result  
of numerous reports received from  
the military regarding thefts at  
Whitfield Barracks, a search was  
carried out by the police. Nothing  
incriminating was found in the  
barrack rooms, but a search in the  
room boys' quarters revealed a  
pawm ticket amongst defendant's  
articles.Further enquiries proved that  
the ticket in question related to a  
transaction involving a pair of  
trousers, which were at once recog-  
nised by Pte. Scott as his property.  
When searched at the station,  
defendant had \$75 in his posses-  
sion. Sgt. Haynes said that defen-  
dant claimed this sum as his  
total savings, and that he had  
pawned the trousers in order to  
obtain some medicine. Accused  
was reluctant to "dig into" his  
savings.In finding accused as stated  
above, the Magistrate said that  
he was taking into consideration  
Lo's fine record. An order was  
also made from Lo to pay \$1.00  
amend to the pawnbroker to re-  
lease the trousers for Pte. Scott.**BANKRUPT IS  
DISCHARGED**Money Advanced By  
EmployersJoseph Mathias Pinna, clerk in the  
Chartered Bank, who was adjudged  
bankrupt in 1933, was granted a  
discharge certificate by the Acting  
Justice (Mr. Justice Hayden) in the  
Bankruptcy Court yesterday.Mr. W. A. Mackinlay, who ap-  
peared for Pinna, said he had been  
repaying his indebtedness at \$31 a  
month. His employers now had  
offered to advance him \$11,000 to**HEROIN PILLS

MONEY****INNOCENCE PROVED**Fung Wo, 41, an assistant in the  
compradore department on board  
the s.s. Lung Shan, was charged  
before Mr. S. F. Balfour at the  
Central Court yesterday with the  
possession of two packets of heroin  
pills and 67 counterfeit ten-cent  
pieces at No. 264, Des Voeux Road  
West, first floor.Mr. C. A. Sutherland, Russ ap-  
peared for the defendant, while  
R. O. Grimmit was for the pro-  
secution.R. O. Grimmit stated that he  
raided the premises and found the  
two packets of heroin pills under a  
bed in a rattan basket. Inside the  
basket was also a paper parcel  
which contained the counterfeit  
coins. He was suspicious of the  
coins and so took them to his  
office where he rang up the Po-  
lice. Defendant had said that the  
basket belonged to his wife.Det. Sgt. Mann deposed of re-  
ceiving the coins and said that the  
wife had said that the basket be-  
longed to a woman who had left it  
in the house for the night.Sgt. Whitcroft then gave evi-  
dence as to the quality of the coins.The defendant in the stand said  
that he had been on the s.s. Lung  
Shan for about twenty years and  
this was the first time that he had  
been in trouble. On May 21 he  
was on sick leave. He knew  
nothing of the pills or of the  
coins. The clothes in the rattan  
basket were those of a woman.Ho Chuen the defendant's wife  
said that her husband knew  
nothing of the articles. The bas-  
ket had been left there by a wo-  
man named Ah Yuk, who was a  
fellow country-woman of hers.  
This country-woman had come to  
Hong Kong and told her that she  
had nowhere to go. She asked  
permission to leave her belongings  
in the house for the night and  
will return for them in the morn-  
ing. She put two packets under  
the bed and when asked what they  
were, answered that they were for  
the treatment of fever.Cross examined by R. O. Grim-  
mitt as to whether the visitor had  
a husband, which could possibly  
explain the presence of a razor in  
the basket, witness replied that  
she had one.Addressing His Worship, Mr.  
Russ argued that the defendant  
was obviously innocent as the ap-  
parent truth of the last witness  
showed.

Defendant was discharged.

**PRISONER'S DEATH****"Natural Causes"  
Verdict Returned**An inquiry into the circumstan-  
ces surrounding the death of  
Wong Sze, prisoner N. 6148 who  
died in the Victoria Gaol Hospital  
on Thursday, was held yesterday  
at the Central Court with Mr. S. F.  
Balfour as Coroner.The jury was composed of  
Messrs. D. J. Fraser, (Foreman),  
Charles Young and J. P. Schotter.  
The evidence of the Chief War-  
der Barrett was that the prisoner  
was sentenced to a term of nine  
months on May 18, this year and  
on May 26 was admitted to the  
Hospital where he died on May 28  
at 9.55 p.m.Dr. G. H. Thomas, Acting Medi-  
cal Officer at the Victoria Gaol  
said that on May 26, the deceased  
attended the usual morning sick  
parade. He looked weak and was  
put into the Hospital to be treated  
for fever and influenza. A sample  
of his blood was sent to the Bac-  
teriological Institute which re-  
ported that the deceased was suffering  
from relapsing fever. The patient  
was therefore treated specifically  
for this fever. His temperature  
however rose to 105 degrees and  
he died at 9.55 p.m. on May 28.The disease was a contagious  
one and was due to a spirochaete  
which was carried by lice. The  
disease was not caught in the gaol.  
An examination by Dr. Shaw re-  
vealed the facts that the deceased  
suffered from scabies and an ul-  
cerated anal region due to ve-  
neral affection.A verdict of death "by natural  
causes" was returned by the jury.enable him to obtained his dis-  
charge.The Official Receiver (Mr. J. B.  
Prentiss), supported the petition  
which was opposed by one of the  
creditors.**Around the Courts****CHARGE NOT PROVED**Brought before Mr. Q. A. A. Mac-  
fadyen at the Kowloon Magistrate's  
Court yesterday for attempting to get  
\$80 by false pretences, Chan Li 20,  
unemployed, was discharged be-  
cause of insufficiency of evidence.  
A retired naval steward, named  
Wong Yung, aged 40 was cited as  
complainant.Detective Sergeant Forrest said  
that accused attempted to get  
money from complainant by pre-  
senting a false letter.**BANISHEE COMMITTED**Committed to stand his trial at  
the Criminal Sessions, Kwah Ping,  
35, a returned banishee appeared  
before Mr. S. F. Balfour at the  
Central Court yesterday. He was  
last banished for 10 years on April  
22, this year. He was arrested in  
Hong Kong on May 9.Det. Sgt. Mackay was in  
charge of the case.**ELECTRIC FITTINGS THEFT**Cheung Fat, 37, unemployed, was  
ordered to pay compensation of  
\$5 or to serve 12 days imprison-  
ment in default and was further  
fined \$20 or three weeks by Mr. W.  
Schofield at the Central Court  
yesterday, when the defendant  
was convicted on the charge of  
larceny of a quantity of electric  
fittings from three different ad-  
dresses in Wanchai.Det. Sgt. Dowman said that  
the defendant was arrested in  
Bullock Street.**WOMAN AND ARMS**Charged with possession of a re-  
volver, an automatic pistol and  
200 rounds of ammunition, Wong  
Yee, 47, married woman, was re-  
manded for 24 hours on the ap-  
plication of Detective Sergeant  
Kinnear, at the Kowloon Magis-  
trate's Court yesterday. Accused was ar-  
rested on May 25 on board boat  
No. 4795A, which was moored in  
the Yau Ma Tei Typhoon Shelter.**DUTIABLE GOODS SEIZED**Before Mr. Q. A. A. Macfadyen  
at the Kowloon Magistrate's yester-  
day Sergeant H. Green made an  
application for the confiscation of  
4½ gallons of dutiable liquor,  
and 4 lbs. of tobacco, found on  
the 11.35 a.m. train from Sheng  
Shui on May 27.The Magistrate ordered a re-  
mand for one week to await a claim-  
ant.**BANISHEES AGAIN**Two banishees appeared before  
Mr. Q. A. A. Macfadyen at the  
Kowloon Magistrate's charged with  
violation of deportation orders. Li  
Sum, (23) was sentenced to four  
months' jail, while Mak Fu (32)  
was ordered imprisonment for  
twelve months. Inspector Ellis  
said that the two were arrested at  
the same time. Li was banished  
on February 13, while Mak was  
deported on December 23.**POSSESSION OF MOULDS**A formal remand for one week  
was granted by Mr. E. Himsforth  
at the Kowloon Magistrate's yester-  
day when two men were charged  
before him with possession of  
moulds for counterfeiting one cent  
and ten cent pieces respectively.  
Inspector W. R. Chester-Woods  
appeared for the prosecution.  
The accused were Ho Wah, 35, and  
Tsang Kwan, 31, both unemployed.**EMBEZZLEMENT CHARGE**Charged with the embezzlement  
of \$30 the property of Alfred K.  
Yuen and Co., on February 8, Wal  
Chi-man, 27, printer, appeared be-  
fore Mr. S. F. Balfour at the Cen-  
tral Court yesterday and the case  
was fixed for hearing on June 5.  
Mr. Hugh-Jones appeared for  
the defendant, Mr. M. A. da Silva  
was for the prosecution. Det.  
Sgt. C. Byron appeared for the  
Police.

Bail was allowed in \$150.

**A REAL GANG  
FIGHT****COOLIES GAOLED**Charged with participation in  
what was described as a "real  
gang fight" four men appeared  
before Mr. W. Schofield yesterday  
at the Central Court charged with  
disorderly conduct.The four defendants were Shun  
Kwok-ching, Tsai Shu-hin, Shing  
Wang-chuen and Cheung F.  
chang, coolies of the Hong Kong  
Electric Company, North Point.The four complainants were  
Wong Yuen-chun, Cheung Sang,  
Lai Chor-chu and Chan Sing, de-  
scribed as washermen.Acting Sub-Inspector Madgwick  
said that the fight had the appear-  
ance of a real gang fight in which  
the four defendants attacked the  
complainants with bamboo poles  
and stools. The first complainant  
was knocked unconscious, as a  
result of a blow in the stomach  
with a pole. He also sustained a  
broken nose. But for the timely  
arrival of the Police the fight  
might have assumed serious pro-  
portions.The fight started when the wife  
of the first defendant went to buy  
vegetables at Chun Yung Street,  
where the first complainant was  
alleged to have used abusive lan-  
guage to her. In the quarrel the  
wife was alleged to have threat-  
ened to bring the gang to fight for  
her.The defendants were ordered to  
pay \$10 compensation to each of  
the complainants or to undergo  
three weeks gaol, and were sen-  
tenced to an additional two months  
each.**PO PU! TICKETS**Wong Sze, 30 widow, admitting  
the possession of a number of "po  
pu!" tickets at Queen's Road Cen-  
tral near Wellington Street, ap-

the Central Court yesterday and  
was fined \$50 or three weeks in  
default.**NEW CREAM MASCARA**

Truly waterproof—far easier to use—because not mixed with water when applied

**Make the Eye-Cup Test**Instead of waiting for tears, rain, or a plunge to  
show you, in a tragic way, that your mascara isn't  
safely smear-proof, make the eye-cup test... with  
an eye-cup full of water. If your lashes are covered with  
old-fashioned mascara, they will likely become a sticky,  
"rummy" mess... showing how easily the charm of your  
eyes can become a dull, disliking smudge upon your cheek.  
Then... tattoo your lashes with Tattoo Cream Mas-  
cara... let it dry... and make the eye-cup test. Tattoo  
cannot run or smear... you'll be delighted to discover  
that each tattooed lash, regardless of the drenching bath,  
remains beautifully tattooed!The two little circled pictures at the right show another  
reason why you will become loyal to Tattoo once you have  
tried it. In the top circle you see how a tattooed lash is  
smoothly and evenly darkened from base to tip. Obvi-  
ously, such lashes appear entirely natural and a thousand  
times more enticing than lashes from which hang  
beady clods of lumpy mascara.**TATTOO CREAM MASCARA**

## SMUGGLING METHODS EXPOSED

INTIMIDATION CHARGE  
LEVELLEDShareholder Outspoken  
At Meeting

## CRITICISM OF CUSTOMS

A vivid exposure of the methods and organisation of smuggling on China coast vessels was made by Capt. W. E. Kirby at the annual meeting of the Douglas Steamship Co. Ltd. yesterday.

In alleging coercion and intimidation against the smuggling organisation, Capt. Kirby quoted two cases in which it had caused the removal of two chief officers because of their diligence in detecting unmanifested cargo.

## Douglas Co. Position

Following a reference to smuggling in the chairman's speech, Capt. Kirby said:

We have just heard the chairman, in his review of the company's working for the past year, comment upon among other matters, the practice of smuggling. Incidentally, this is the third occasion within recent weeks when the chairman of local shipping companies has deemed this matter to be of such serious concern as to call for special reference being made to it in his address to shareholders.

Initially, I can endorse the chairman's remarks by reason of my close and almost daily contact with the floating and preventive staffs.

Thereby I know that every human endeavour is sustained towards minimising the loss and inconvenience which is occasioned this and other coastal and river companies by the persistent and intermittent activities of smugglers.

You will also have doubtless read lately of the state of affairs in this respect which has manifested itself in North China and which is but an elementary sequel, as history has shown, in any country which adopts a policy of high tariffs, thereby enhancing the lucrative possibilities attendant on the importation of surreptitious cargo and contraband.

## PLANNED BAND

Secondly, in the continued efforts to cope with smuggling we are not dealing with a few scattered irresponsible individuals but with planned organisation which can and has brought into play the very potent factors of coercion, intimidation and even worse when successful opposition to their activities has resulted.

The smugglers, through the dominant influence of those behind them, have, in two specific cases within my knowledge during the past 18 months, been successful in having removed from their respective ships and in this Colony, two chief officers whose diligence in searching had led to the discovery of the unmanifested cargo and the handling of such over to the Chinese Maritime Customs.

I just mention this in passing so that you will, in this connection, have a slight idea what the carrying out of standing orders and duties entails and also the strength of the forces with which both the companies and officers have to contend.

## CUSTOMS ATTITUDE

I would now refer to another aspect of this problem on which the Chairman touched and that is the attitude of the Chinese Maritime Customs in holding the ship to account in respect of any unmanifested article of cargo or stores found on board.

The position is that, for example, should a stray parcel be discovered on board and unmanifested the ship is liable to be mulcted in a fine of \$200.

It matters not to whom that article actually belonged: it has been found on the ship and unmanifested and that is considered by the Commissioners of Customs good and adequate reason for the imposition of a fine.

A more illogical and unreasonable dictum it is difficult to conceive, especially when it is taken into consideration that the vessel so fined may have just completed disembarkation of anything up to 800 or 900 native passengers and

any one of which may have been the actual owner of the property for which the ship was penalised.

It that principle is to be accepted then by the same token one cannot challenge the hypothesis of the occupant of a house being responsible for an abandoned child found on his doorstep?

## ABSURD POSITION

The position is so obviously absurd that one is constrained to wonder whether considered and serious thought was accorded to the framing of such an enactment or whether it was visualised for what it simply is, an additional source of income to the disadvantage of foreign shipping?

The point that is seemingly deemed unworthy of note by the Chinese Authorities is that the smuggler, in the event of him being advised by confederates (invariably close at hand) that circumstances are not propitious for getting his line of commodities immediately ashore, he can divest himself of any and all responsibility by the simple expedient of leaving such on the ship in a convenient spot, to be retrieved later when Customs officials are not in the vicinity.

In any case detection as a risk of the smuggler is practically non-existent: the unmanifested goods are either recovered later to his gain or discovered by the Customs to the ship's debit.

In general the position is becoming increasingly serious for both companies and officers and I trust that the substance of the remarks I have made will be given due consideration in any further representations which may be deemed desirable on this matter to the Chinese Authorities.

Mr. Williamson—I thank you, Mr. Kirby, for your remarks. The position is very difficult and I see that you appreciate it.

## YEAR'S LOSS

Mr. Williamson said:—After paying all running expenses, docking charges which have been high owing to the new survey requirements, premia of insurance and all allowances the loss on the year's working is \$133,319.22. After transferring \$100,000 from reserve and providing for other charges shown in the profit and loss account, there remains a debit balance of \$33,319.22 from which must be deducted the balance brought forward from last year, \$19,795.70 leaving a debit balance to be carried forward of \$13,523.52.

Your consulting committee and general managers regret the unfavourable showing in these accounts. It has been brought about entirely by adverse trading conditions which have been accentuated particularly by heavy fluctuations in exchange and the imposition of tariffs which have substantially checked the even flow of commerce on this coast.

Heavy losses were incurred for the period under review in our remittances from our coastal agencies, exchange at one time touching 150, which meant a very heavy discrepancy when coast port earnings were converted to Hong Kong currency. Fortunately this position has substantially improved by the managed currency in Hong Kong which is now in closer relationship to that of coast ports.

## SMUGGLING RAMPANT

High tariffs have meant a decided falling off in legitimate trade

as smuggling is rampant up and down the coast. We have our own preventive staff working in close co-operation with our floating staffs and the Hong Kong police, and our thanks are due to them for their willing co-operation in their endeavours to stop illicit trading as far as possible on our vessels.

It is disheartening to state that fines have been inflicted on even small seizures made at coast ports when we ourselves are doing our utmost to assist the authorities in this preventive work. If the instigators of these crimes were punished by the customs authorities, we feel that it would go a long way in substantially curtailing the activities of smugglers. Competition has been very keen for the small amount of cargo moving new vessels have been placed on the run in competition and cargo and passenger rates have been reduced to rates which leave little to cover the operation of the vessels.

## TAXATION EFFECT

The present taxation of goods imported into and exported from China and the uncertainty of the position regarding the imposition of new taxes have had a very discouraging effect on our constituents, a great number of whom have curtailed their activities to a bare minimum and are content to wait for better times, or at least until conditions become more settled.

Docking and repair expenses have been higher than usual owing to the new survey requirements. Careful attention has been given to all outgoing in this direction, and also to the economical operation of our vessels.

You may note that no allowance has been made for depreciation on our tonnage, as your consulting committee and general managers consider that due to the ample provision made in the years 1933-1934, the present fleet valuation as per balance sheet is well within its present market value, and especially when reflected in sterling.

Our investments have fluctuated considerably in value during the period under review owing to the exchange conditions and I am glad to be able to state that they show a substantial improvement in value on what they at one time stood at during the year. The policy of holding them rather than sell in order to liquidate our overdraft has proved to be beneficial.

I do not think there is any more in the accounts that I can comment upon so now beg to propose that the report and accounts as submitted be adopted and passed. As soon as this resolution has been seconded I will be pleased to answer to the best of my ability any questions shareholders may desire to ask.

## EARLY IMPROVEMENT

Mr. J. F. Wright said:—The reasons for the loss shown on last year's working, much as it is to be regretted have been fully explained by the chairman and can be appreciated by all of us who are aware of the conditions of trade in general during 1935.

It is to be hoped that there will be some improvement to be gained from the managed currency. Trade generally seems to be benefiting and this should be reflected in improved conditions on the coast. As pointed out by the chairman, the rate of exchange for remittances from Coast Ports has already shown substantial improvement.

It is fortunate that the profits of the past two years were used for depreciating the Company's properties so fully. The consulting committee and general managers are to be congratulated on their conservative policy from which we are now benefiting.

I beg to second the motion for the adoption of the report and accounts as submitted.

## CONSULTING COMMITTEE

Mr. T. Ramsey moved and Mr. Wong Ping-sun seconded that Sir Robert Ho Tung, Mr. M. T. Johnson and Mr. H. J. Armstrong be re-elected members of the consulting committee. The proposition was carried.

On the resolution of Mr. Chun Wing-kue, seconded by Capt. Patey, Messrs. Lowe, Bingham and Matthews and Messrs. Linstead and Davies were re-elected auditors.

Those present were:—Messrs. S. T. Williamson (chairman), M. T. Johnson and H. J. Armstrong (consulting committee), C. L. Farmer (secretary) and Chun Wing-kue (Wong Ping-sun, Wong Min-hin, Hui Chai-ueam, T. Ramsey, P. C. Potts and J. F. Wright and Capt. W. E. Kirby and Capt. W. B. Patey (shareholders).

MANSLAUGHTER  
CHARGE

Student Denies Use Of Fists

Pang Ki-yip, 24, student, of No. 87 Ki Lung Street, second floor was committed to stand his trial at the next sessions on a charge of manslaughter arising from a quarrel between the accused and a 48-year-old earth coddle named Chu San-lam, when he appeared before Mr. Q. A. A. Macfadyen at the Kowloon Magistracy yesterday.

Det. Inspector A. H. Elston appeared for the prosecution.

Pang was alleged to have struck Chu twice with his fist and then ran away. The quarrel was over a loan of 50 cents and took place at Woung Chuk Street, Shamshuipo on May 1.

Chu at the time was accompanied by his wife and son. On arrival at the Kowloon Hospital Chu was pronounced dead by the medical attendant.

Electing to make a statement from the witness box, Pang said:

I myself in fact did not kill Chu San-lam with my fists. If I have killed him let the "Five Thunders" kill me! That is all I have to say. I have nothing to add to what I said in my statement in answer to the charge. I did not use my fists. Pang intimated that he had no witnesses to call in his defence.

In committing accused to stand his trial at the sessions, the Magistrate remarked he considered that there was a case for the jury to decide.

## GENERAL KARL LITZMANN

Death At Age Of 86

("Hong Kong Daily Press" Special)  
Berlin, May 29.

General Karl Litzmann, one of the most distinguished leaders on the German Eastern frontier during the Great War, died at his estate at Neugloboz near Ruppelburg at the age of 86. The general had celebrated his birthday in January. He entered the Prussian army in 1867 and took part in the Franco-Prussian War 1870/71, and thereafter held many high posts including that of Director of the Prussian Military Academy before retiring from active service in 1905.

After the outbreak of the war in 1914, Litzmann was appointed commander of the 3rd Prussian Guards Division. In the campaign on the Eastern front Litzmann had ample opportunity to show his exceptional strategic knowledge.

## COLONIES AND RAW MATERIALS

A great deal has been heard during the past twelve months about the woes of the so-called "dissatisfied" countries, Germany, Italy and Japan. The complaint of all of them, the essential ingredient of their "dissatisfaction," is either that, as in the case of Germany, they have no colonies at all, or that such colonies as they possess are wholly inadequate in area and resources. The reasons why a country should desire colonies cannot be reduced to any simple formula. Considerations of strategy and prestige no doubt play an important part, but these are not the considerations on which primary emphasis is laid by the complainants. What they demand overtly is an outlet for the overflow of their expanding populations and the control of resources in raw materials to mitigate their lack of self-sufficiency. With regard to the overflow of populations, the German Colonial Research Bureau is recently stated to have expressed the view that Tanganyika could be capable of containing 9,000,000 German settlers. Italy has advanced similar pretensions in the matter of Abyssinia. It is therefore pertinent to recall that the whole of the African Continent, after decades of colonisation, contains only 3,000,000 Europeans, and that Tanganyika and Abyssinia represent each about three per cent. of the area of Africa. That is sufficient commentary on the value of Africa (or indeed of any tropical country) as a receptacle for European colonists.

On the more complicated question of the value of colonial territories as suppliers of raw materials there exists a good deal of misapprehension, not only in Germany and Italy, but also in England. A report prepared by the Royal Institute of International Affairs should help to restore a sense of perspective. German propagandists have been claiming that if only Germany could receive back her colonies she would be well on the road to self-sufficiency. No longer would she remain condemned to poverty by her domestic lack of all the principal raw materials except coal and potash. What, then, do we find? The whole of the British Colonial Empire, including the Mandated Territories (that is to say, most of the former German colonies), but excluding, of course, the Dominions, only relieves the United Kingdom of her deficiency in nine out of thirty-four raw materials. Of six "basic" raw materials of modern industrialism, recently enumerated by Dr. Goebbels only one, namely rubber, is supplied by the British Colonial Empire in important quantities. Even the whole existing British Colonial Empire, therefore, far less the former German one, would do little to relieve Germany of the deficiencies she deplores.

It is no doubt true that many of the potentialities of British and other Colonial Empires still remain undeveloped. But when every allowance is made for this factor, it is evident that grossly exaggerated ideas are being propagated as to the economic value of colonial possessions. It is not in any important degree true to say that Germany's present plight is due to her lack of colonial territories or could be rectified by their acquisition. The situation may be well illustrated by the example of the United States. That country is as rich in raw materials as the British and French Colonial Empires put together. Yet even she (to quote the report) "is seriously deficient in rubber, manganese, chromium, tin, antimony, tungsten, nickel, vanadium, platinum, asbestos, graphite, silk, flax, jute, hemp and sisal, and has inadequate supplies of bauxite, magnesite, mercury, potash and wool." On the other hand, notwithstanding these deficiencies, the

## REXIST LEADER SEES KING LEOPOLD

Wants To Be Minister Of Justice

## WILL DEPOSE GOVERNOR OF NATIONAL BANK

(Hong Kong Daily Press' Special)

Brussels, May 29.

The fact that Leon Degrelle, the leader of the Rexist movement which although only founded six months ago succeeded in gaining no less than 21 seats in last Sunday's elections—has been received by King Leopold, has attracted considerable attention. An interview formed part of the consultations held by the King with the various party leaders concerning the formation of the new government.

On leaving the Royal Palace, Degrelle was piled with questions by journalists to whom he made some interesting statements. He declared that he, on principle, was opposed to collaboration with the other parties and that if, contrary to expectations, he should be asked to enter the new government, he would accept no other portfolio than that of Minister of Justice in order to be able to carry out the great "purge" and "bring all gangsters to book."

As Minister of Justice he would, moreover, depose the governor of the National Bank and compel all politicians who were members of boards of directors of financial institutions or industrial concerns to withdraw from public life.

After reiterating that he saw no other salvation for the country except by doing away with the present party system, Degrelle added sarcastically that in such conditions he did not expect other parties to attach any too great value to his collaboration.

He then went on to say that he had forbidden deputies of his party

to have any social intercourse with the deputies of other parties or take meals in the deputies' dining room.

They would, moreover, renounce the privilege of free transport in the second class, granted to all parliamentarians by the Belgian railways and would instead travel third class.

All Rexistists would have to pay their annual Parliamentary allowance into the party funds and in exchange each individual Rexist deputy would be remunerated by the party for his parliamentary work according to his needs.

## HEALTH AFFECTED BY WAR

Ras Nasibu Arrives In France

Marseilles, May 29.

Ras Nasibu, late Commander-in-Chief on the southern front in Abyssinia, has arrived here to consult a doctor as his health has broken down under the strain of the Abyssinian campaign.

United States possesses adequate domestic supplies of five out of Dr. Goebbels' "six basic raw materials of modern industrialism." Nevertheless, even this abundance of resources has not prevented her from sinking to a depth of cyclical depression scarcely paralleled by any other country. It is not for Great Britain to deny that colonies have value, even an economic value as supplies of raw materials; but to imagine that they are a sort of El Dorado is sheer delusion.

## THE WANGCHOW TRIPLETS

Mr. Stork's Muni-ficent Gift To Hong Kong

In a modest endeavour to emulate the famed delivery of the Dionne quintuplets of Canada, a Chinese woman recently gave birth to triplets in the New Territories. This unassuming and unassuming (?) effort has, it will be hoped, placed Wang Chow upon the map.

One of the triplets, unfortunately, died, but the other two are thriving and are progressing well. The fortunate mother is also progressing favourably and is under expert care. The proud father, we understand, is a farmer.

The triplets were born early in the week and were delivered by Miss Liang Tsai-yu, the Government midwife at Ulong.

The question now arises are the remaining two babies twins or still triplets?

## PERSONAL

His Excellency the General Officer Commanding and Mrs. Bartholomew are returning to the Colony on June 9. The G.O.C. has been on an inspection tour of the Northern Area. Colonel Blake, A.D.S.T., and Mrs. Blake, will also be returning by the same ship.

Professor L. Forster, leaving the Colony for a vacation at Home, was a passenger aboard the Imperial Airways liner Dorado which left Kai Tak at 11 a.m. yesterday, for Penang. The plane carried 52 kilos of mail. Professor Forster will continue his trip by steamer from Penang.

Dr. and Mrs. G. A. C. Herklots leave for Home to-day by the Chitral, on short leave. They will be returning to the Colony about the middle of September.

Among the passengers who left here yesterday by the Empress of Canada were: Mr. L. W. Amps, Mr. and Mrs. J. T. Bagram, Mr. J. E. Joseph, Mr. and Mrs. John Mann, Mrs. M. Middleton-Smith, Sir Henry and Lady Pollock, Prof. and Mrs. R. Robertson and others.

Miss M. Brown arrived here yesterday by the s.s. Chitral from Yokohama.

The following arrived here yesterday from Shanghai by the s.s. Chitral:—Mrs. J. Walsley, Dr. F. Walsley, Lt. N. R. Bosanquet, Lt. L. H. Yates, Lt. D. M. Pritchard, E. A. V. Ribeiro, Mrs. V. A. Quin, Mr. Chan Ah Kow, Mr. Wong Fook Eng, Mr. Wong Pin, Mrs. G. Fargo.

# JAPANESE MILITARY OFFICER EXPLAINS

## North China Garrison Strength

### STATIONING OF TROOPS ON RAILWAY

#### Agreement With Sung Denied

Tientsin, May 29. A Japanese military spokesman this afternoon declared that the Japanese garrison, when the movements are completed to-morrow, will slightly exceed 6,000. The figure of 50,000 mentioned by students in their propaganda he said, is ridiculous. In addition 800 men are returning to Japan.

The spokesman denied that an agreement existed between General Tada and General Sung Chieh-yuan for stationing Japanese troops on the Peking-Hankow Railway, adding that only a new post is being established at Fengtai where Japanese troops have already arrived.

The spokesman declared that nothing in the Tangku Truce prevented the Chinese Customs from taking action against smugglers in the demilitarised zone and the coast, but Customs cruisers were not allowed to carry armaments in territorial waters. Armed Customs vessels are regarded by the Japanese military authorities as armed forces unless an agreement to the contrary has been negotiated.

The spokesman added that he thought East Hopei was using the situation for its own ends. Japan had not formally recognised East Hopei, but the Japanese military authorities in North China accorded de facto recognition, while Manchukuo formally recognised the Tunchow regime.

Referring to the increase in the Japanese garrison, the spokesman said that certain Chinese militarists were attempting to cause unrest in Manchukuo through volunteers, adding that there is an underground of Communist measures in North China designed to oust Japanese interests, of which the students' movement led by Communists is one phase.

## MR. CHOU LOU'S TOUR

### To Meet Statesmen In Europe

(From Our Special Correspondent)

Canton, May 29. During his trip to Europe, Mr. Chou Lou, Chancellor of Sun Yat-sen University, will meet Reichsführer Hitler in Berlin and other European statesmen in their respective countries, it was disclosed to-day.

Accompanied by Professor Cheng Hung-hao, Chancellor Chou will arrive in Berlin on June 20. He will meet Premier Benito Mussolini in Rome, M. Leon Blum and other French political leaders in Paris. Mr. Stanley Baldwin and Mr. Anthony Eden in London. Although Mr. Chou is a member of the standing committee of the Central Executive Committee, the highest Kuomintang organ, he will see European officials in his capacity as an anti-Japanese leader.

The chancellor will be away only three months. If time permits, he will also visit the United States and come home via the Pacific. Overseas Chinese in San Francisco have urged Mr. Chou to visit them when he goes to the United States.

## TROOPS TRANSPORTS ARRIVE

### Precaution By Chinese Authorities

Tientsin, May 29.

While Japanese troops continue to pour into North China, the Chinese authorities are doing their utmost to prevent fresh anti-Japanese demonstrations by the populace.

Police are guarding the universities and schools, while students are kept indoors and meetings are banned.

Four Japanese troop transports arrived at Tangku and the men entrained this afternoon for Tientsin, Peiping and Shanhaikuan.

## JAPANESE ARMY OFFICER

### Found Fatally Injured Outside Cabaret

Peiping, May 29.

The Chinese authorities are concerned with the possibility of political repercussions in connection with the murder of a Japanese army officer who was found fatally injured at midnight on May 26 outside a cabaret. However, it is understood that the circumstances point to a private vendetta.

The nature of the injuries has not been revealed.

## RIVERA AGAIN ON TRIAL

(Hong Kong Daily Press Special)

Madrid, May 28.

The Spanish Fascist leader, Primo de Rivera, son of the late Dictator under the reign of King Alfonso XIII, was once again on trial on Thursday, charged with being in illegal possession of arms. The State Prosecutor demanded 13 months' imprisonment, but the Court sentenced the accused only to five months. Great excitement broke out among the spectators on hearing the verdict, the crowds protesting violently. The police immediately arrested everybody in court.

## MAJOR IMAI'S STATEMENT

### Pressure On General Sung Denied

Peiping, May 29.

The Japanese military attaché, Major Imai, declared at an interview that it was absolutely untrue that the Japanese were pressing General Sung Chieh-yuan to establish a separate Customs in North China.

Major Imai stated that when the Japanese troops movements are complete there will be 1,000 troops in the Peiping area compared with an average of 300 for some years past.

The officer denied that the Japanese would occupy Nan-yuan barracks.

## CORONATION OF THE KING

### Proclamation With Due Ceremonies

London, May 29.

The proclamation of the King's Coronation on May 12 next year was read in the scarlet hung balcony of St. James Palace in accordance with the precedent of centuries. The Royal Standard floated from the clock tower as His Majesty is in residence.

The pageantry of the occasion was afforded by Officers of Arms and Heralds in glittering tabards, the same as worn in the days of Edward VI, and other State functionaries assembled on the balcony while in the courtyard below the King's Guard of Grenadiers and Band of the Coldstreams were drawn up.

After the trumpeters had sounded a fanfare thrice, the Garter King of Arms Sir Gerald Wollaston, read the proclamation in the nearby yard. The crowds were apparently overawed by the solemnity of the occasion and refrained from cheering.

A modern touch was provided by microphones facing Sir Gerald Wollaston for a talk record of the proclamation and loud speakers for the benefit of the crowd.

At the conclusion of the ceremony a procession of State was formed, including functionaries on horseback, which proceeded to Charing Cross, Temple Bar and the Royal Exchange where the proclamation was delivered again.

## RUBBER CONTROL POLICY

### London Journal's Survey

London, May 29.

It would seem to be in the interests of both producers and consumers that the policy of the International Rubber Restriction Committee should be designed to secure a rise in consumption rather than prices is the conclusion to-day's "Economist" reaches in a survey of the first two years' rubber restriction.

The journal declares that the I.R.R.C. certainly achieved the aim of bringing about a substantial increase in the price of crude rubber and no doubt the current price was reasonably remunerative and efficient to producers.

Although the exaggerated hopes of investors in the rubber producing industry may not have been realised, the majority of concerns are again working profitably, but at the same time the recent trend of consumption indicates a demand, not as independent price changes as has been suggested.

## MESSAGES FROM NEW LINER

### Speed Record Talks Deprecated

London, May 29.

Wireless messages from the liner Queen Mary state that the vessel continuing her maiden voyage in completely satisfactory conditions. Her speed is entirely satisfactory, but Sir Perry Bates, Chairman of the Cunard-White Star Line, who is on board, deprecates suggestions that efforts are being made to establish a speed record.

He says that the company have no intention of running the ship excessively fast on this trip. He mentions that she was built to maintain a schedule of 28½ knots and like a new motor car a new ship must be "run in."

## ITALY'S TACTICS IN EGYPT

### Uneasiness Felt In Britain

#### FRENCH PRESS OPINION

(Hong Kong Daily Press Special)

Paris, May 29.

Signor Mussolini's conversations with the "Daily Telegraph" correspondent attracts much attention here though opinions differ concerning the impression which Duce's utterances are likely to create in London.

"Le Journal" praises the clarity of the Italian proposals and says that a statesman who so lucidly and unambiguously defines his aims and intentions cannot be accused of endeavouring to evade an understanding.

"Le Oeuvre" on the other hand, opines that Mussolini's declarations are not calculated to produce in London the impression desired by their author.

The paper stresses the uneasiness felt in Britain concerning Italy's tactics in Egypt, and the irritation caused in British political circles by the invitations of numerous Egyptian leaders to visit Rome, as well as by Mussolini's speech on the occasion of King Fuad's death.

The non-aggression pact which Italy is desirous of concluding with Egypt is, according to the paper, motivated by the wish to prevent the British army of 12,000 men now stationed in Egypt from increasing, conformably with the British Government's proposals which are now forming the subject of negotiations between the British High Commissioner in Cairo and the Egyptian authorities.

(Hong Kong Daily Press Special)

Berlin, May 29.

The first telephone conversation ever to take place between two deaf mutes took place on Thursday when an engaged couple, the man aged 25 in Leipzig and the woman aged 23 in Berlin, conversed for six minutes on the newly installed television, which enables each party to see the image of the counter-partner.

The pair wanted to discuss the date of the wedding, and the bride's uncle hit on the ingenious idea of making the couple happy by presenting them with a television talk at his expense. Each three minutes costs three and one half Marks.

The pair spoke the usual deaf and dumb sign language, their faces aglow with pleasure. The conversation passed off without a hitch, each understanding the other perfectly.

## BISHOP WITHOUT DIOCESE

### Rouen Population Surprised

(Hong Kong Daily Press Special)

Paris, May 29.

The dismissal from his exalted ecclesiastical office of the Archbishop of Rouen, which caused such a sensation a week ago, had a surprising sequel last Thursday, when Prelate Bertin, whose denunciation to the civil authorities was the prime reason for which Archbishop de Villers incurred the displeasure of Rome, reappeared in his diocese and resumed service at the two congregations which were formerly in his charge.

This development took Rouen by surprise, because the population had in the meanwhile openly taken sides for the Bishop, numerous public demonstrations of sympathy having been staged. The population stands daily in long queues to sign a petition to the Pope.

The proposal to be allowed to call himself Bishop, "in partibus infidelium," i.e. Bishop without diocese, found no favour with de la Villers himself, as he recoils from a separation from his devoted congregation.

## APPEAL FOR CIVIL DISOBEDIENCE

### AGITATION BY ARABS AND MOSLEMS

#### Wireless Propaganda From Italy

#### STATEMENT ON PALESTINE SITUATION

London, May 29.

In a statement made in the House of Commons on the Palestine situation, Mr. Malcolm MacDonald, Secretary of State for the Dominions, said that an appeal for civil disobedience was published as a resolution of the Arab National Congress on May 7.

Manifestoes of a more or less inciting character have been issued by the Arab strike committee, by the leading Moslem townspeople in Jerusalem, by the so-called National Guard at Jaffa, and the editor of a prominent Arab newspaper.

The Dominions Secretary said that the Government were satisfied with the steps taken by the High Commissioner, Sir Arthur Wauchoppe, and had the fullest confidence in his handling of the situation.

Mr. MacDonald admitted that there was wireless propaganda from Italy and disclosed that representations had been made by Mr. Anthony Eden in connection with the matter.

## SEAFORTH'S IN ACTION

Jerusalem, May 28.

While the increasing number of Arab hawkers in the streets and the half-open Arab shops indicate a decline in the strike, other Arabs are trying to intensify the stop-

page. A manifesto signed by members of the Arab students' committee has been published at Nablus, calling upon Arab civil servants to strike.

So far 40 agitators and strike-leaders have been banished to other towns or placed under police surveillance. Arab journalists have decided to suspend publication of all Arabic newspapers to-day.

The Seaforth Highlanders were again in action yesterday, being fired upon by Arab bands near Jinn. They returned the fire, killing at least two Arabs and wounding four. The Camerons suffered no casualties. There were many disturbances on Wednesday night, police and snipers exchanging many shots. There were no casualties.

## STRIKE NEARING THE END

### Employers Willing To Discuss

(Hong Kong Daily Press Special)

Paris, May 29.

The strike of the French metal workers now appears to be nearing its end. Following prolonged conferences between Sarraut's Government and representatives of the employers and workers union on Thursday, the employers declared their willingness to enter into negotiations with the workers if the latter evacuate the occupied factories.

According to a report from Toulouse the strike at the Devolaine Airplane factory in that city has already been settled through the acceptance of the workers' demands by the employers.

## ARAB ATTACKS CONTINUE

(Hong Kong Daily Press Special)

Jerusalem, May 28.

Acts of sabotage continue throughout Palestine. The armed attacks of the Arabs on Government forces have decreased somewhat. Several attempts were made by Arabs coming in boats from Jaffa to impede the construction of the quays of the new harbour of Tel Aviv, the raiders also making attacks on the Jewish harbour lighters. During the past week 10,000 trees and vines have been destroyed. Admiral Pound, commander of the flagship "Barham" now anchored at Haifa, arrived by airplane with his staff at Jerusalem.

## STOP PRESS

### FLIGHT FROM THE GUILDER

London, May 29.

The increase in the Dutch Bank rate from 2½ to 3½ per cent in consequence of the moderately heavy flight from the guilder which began last night gathered momentum to-day. Pressure was most notable on the "forward" market where discounts temporarily widened 4½ cents for one month and 14½ for three months, representing insurance premiums against devaluation of 15.9 per cent per annum and 17.1 respectively. To-day's decline in "forward" guilders was principally caused by the desire of speculators to provide week-end contingencies, but foreign exchange circles generally do not anticipate any serious turn in the international currency situation during the next few days.

Regarding a rise in Bank rate further, the Dutch Government's intention is to maintain the present parity to the last ditch. At the close discounts somewhat narrowed to 4½, 13½.

# CHAMPIONS STILL IN THE LEAD

## High Scoring Bowls Games Last Week

### TO-DAY'S PROSPECTS

#### BY "SHORT HEAD"

Several high scoring matches were registered last week in the Lawn Bowls Leagues which culminated in the K.C.C.'s rink composed of G. Lee, R. G. Craig, F. Goodwin and A. Hyde-Lay (skip) securing a possible against the C.C.C. "B" quartette (J. R. Soares, W. K. Way, K. M. Omar and W. Gill (skip). Sixes were also quite prominent. The results of the matches came off very much as expected with the Senior Champions still in the lead.

Word has been received from the Shanghai Lawn Bowls Association inviting the Local Association to send a team up North for the Annual Interport. The subject as well as the draws for the first round of the Open Singles Championship were dealt with by the Sub-Committee last night at a meeting.

### Recreio Should Win

The Champions had an easy task last week. As expected the Indians had to bow to the inevitable, although the score of 76 shots to 46 did not in the least suggest a one-sided affair. Dallah's rink as I had hinted last week was in the lime-light, defeating Luz's four by four shots, and this was primarily due to the poor playing of the Craigen-gower skip who was greatly to blame, and it must also be conceded that Dallah was playing as well as ever and was ably backed up by M.Y. Adal, but the luck was also with him.

Luz was not the same bowls player of last year. He has deteriorated a great deal, and on Saturday though he was having the upper hand at the commencement the score was tied at the second last end. Luz was lying one up with his first delivery when with his next he made an inexcusable blunder to allow Dallah to collect three points and in the last end Dallah ably supported by his men added another point to win the match by four shots.

U. M. Omar's four had matters very much their way. In fact the display given by A. R. Minu was quite up to standard, but he was overshadowed. The Indians' skip played quite well up to a certain point and invariably when he found himself up against a bad count he lost heart and did not attempt in the least to draw or try to avert a bad slip. Minu is too much of a temperamental player. I doubt whether he will ever make a successful skip. A six was allowed Omar's four in this match. The C.C.C.'s quartette played well and as far as Minu's rink was concerned he was very poorly supported except by J. Hoosen who more than held his own against Summons. Both A. K. Minu and A. H. Rumjahn were deplorable.

R. Basa's four must be feeling pretty elated by the 21 shots victory over Madam's rink which incidentally included a six. I do not think that any of the Indian players was up to scratch and with Basa playing as well as ever on that day the result was never in doubt. M. R. Abbas played a good game and was a tower of strength playing as No. 1.

#### POLICE SURPRISED

The Civil Servants surprised their neighbour the Police when they won a well merited match by the lucky 13 shots. The game was not without its thrills and excitement. In fact so close was the scoring that two rinks tied with 25 shots. In this respect both W. E. Hollands and J. Hollidge the respective skips were seen to great advantage with their masterly bowling and given the maximum of support by their respective men it was indeed refreshing to see that high standard of bowls attained.

W. Mair had the better of the arguments over J. W. Deakin when the Police second rink won by two shots. There was very little to choose between these two rinks. Things were going smoothly all along with points being added up first by one and then by the other rink. Eventually Mair with the aid of his No. 3, A. E. Carey managed to outsmart the C.C.C.'s second quartette.

The ultimate result in this game was centred on the third rink where F. Jones and his men had the advantage over J. Shepherd's four. The Policemen were either feeling stale or else they must have struck a bad patch from the way they played on Saturday. Jones was in irresistible form and he and his men ran out winners by 15 shots.

#### RECREIO DAZZLING

Cluo de Recreio literally swept the board in their match against Kowloon Docks, winning by no less than 27 shots. H. A. Alves, C. G. Silva and F. X. da Silva were all in form and one and all came out with colours flying. F. X. da Silva's four had the biggest margin, winning by 17 shots. R. Lapsley gave C. G. Silva a very close run for the honours and although beaten he was not disgraced.

#### SECOND WIN

Kowloon Bowling Green won their second match of the Season on Saturday at the expense of Tai-koo Docks. The biggest margin of the day went to R. Duncan's four when they trounced W. Weir's quartette to the tune of 20 shots. Duncan was playing as well as ever and the support which he received from his other men kept danger and disaster to his opponents.

A good game was witnessed when W. Macfarlane (K.B.G.) went down to R. Wallace (Talkoo) in a game where fluctuations swayed. The game was very well contested and every shot that was given away had a lot of good bowls in it. Although the score was 22 shots to 18 in favour of Talkoo in this rink, the standard of bowls served was high indeed.

A. M. Holland and his men proved their superiority over Chalmers' four when they ran out victors by 19 shots to 13. The game was another exciting affair. The respective skips were in the lime-light with some clever deliveries and it was a very evenly matched

game until well after the 15th end when Holland by dint of clever drawings and blockings managed to get the better of the exchanges over Chalmers to win by six shots. C.C.C. "B" BEATEN

The K.C.C. won their second victory at the expense of the Craigen-gower "B" beating them by 22 shots at Cox's Path. Hyde Lay's rink was chiefly responsible for the victory, his four beating Gill's rink by the big margin of 21 shots. Craig, Goodwin and Hyde Lay played well but Lee was inconsistent. This four had the pleasure of obtaining an eight. I understand that they were lying seven and Gill in attempting to save pushed another Kowloon wood in to give them eight and a bottle of whisky each. Way and K. M. Omar were the pick of the Craigen-gower four, Gill and Soares were off colour. Fraser's rink had an even tussle with Field's rink, Gittins and Geall were the pick of the K.C.C. while Leonard was the most consistent for Craigen-gower. Omar (A.M.) played well up to tea time but fell away after. Field had an off day no doubt due to a sprained thumb, he could not put any pressure on the wood and it was a wonder he attempted to play at all. Phillip's rink could not get going against Rosset's rink. Silkstone played well but, Bebbington and Phillips had an off day. Rosset played well, and was greatly helped by Souza and Whiteman to maintain his 100 per cent. record.

### TO-DAY'S PROSPECTS

Craigen-gower "A" the present senior holders will be playing away against the Police and from indications provided in the past two weeks should be able to garner another two points at the expense of the Policemen. With the exception of W. E. Hollands, both Shepherd and Mair are not playing good bowls at present, and it will not come as a surprise to me should a big margin be the result.

On the other hand the C.C.C. I still maintain are an unreliable lot. Take last week for instance. Luz's four reputed to be the strongest went down to Dallah's four and it will come as no surprise to me that their victory to-day may yet rest on the laurel of one rink.

Two well matched teams will be opposed to each other when Talkoo entertains the Civil Servants. I believe playing at home is a bit of an advantage and should the Civil Servants be able to get this out of their system they should be able to give the Dockers a good run for the points. In F. Jones, J. Hollidge, J. W. Deakin they have three good skips and if given the

## NEW BASEBALL FIND

### Canadian Pitcher To Make Debut On Sunday

#### HAILS FROM ALBERTA

(BY "BLEACHER")

The Canadian baseball outfit are going to spring a surprise on their Japanese rivals when they clash on the Causeway Bay diamond on Sunday at 9.30 a.m.

The surprise is in the person of Mike Dreany, a new pitching find recently arrived in the Colony.

Yesterday at King's Park where the Canadians were enjoying a "work out," Mike Dreany impressed with his pitching and from his showing, is going to cause the Japanese a deal of trouble.

Dreany hails from Alberta, Canada and will be a definite acquisition for the Kanukas here. He has, I understand figured prominently in club baseball in Canada and besides his obvious ability to "hurl a mean arm," his performance with the bat was also impressive. The Canadians are delighted with their new find, and are viewing Sunday's game with justifiable optimism.

The probable line-up for the two teams on Sunday will be as follows:

Japanese	vs.	Canadians
Mikuni	P	Alltree and Dreany
Yasuada	C	Walker
Takeda	1B	Pearce
Kawamura	2B	Muir
Maruyama	3B	Smedley
Amasaki	SS	Goldstein
Yamasaki	LF	Mueller
Yajima	CF	Divett
Nakamoto	RF	George

In the second game of a double-header programme, the Hong Kong Volunteers and the Eastern are to make their debut in the local league. Their line up is not known but a fast and even game is assured.

right support should be able to pull the game round.

Talkoo too have many well seasoned and tried players. R. Wallace is an ideal skip but one man cannot make a team. Weir is at present playing below par and Chalmers is only mediocre. Though not so well balanced as the Civil Servants they should be able to give a good account of themselves.

Another defeat stares Kowloon Docks in the face when they meet the Kowloon Bowling Green to-day. Kowloon Docks are not the same team as last year. Their

## POSSESSION OF A REVOLVER

### CASE FOR SESSIONS

A raid by the police following information received, which resulted in the discovery of a revolver in a room occupied by a young Chinese, was described at the Kowloon Magistracy yesterday when committal proceedings against Che Man Fat for possession of a revolver, were concluded before Mr. Q. A. MacLayden.

In a lengthy statement from the prisoner's box, Che said that he came to Hong Kong from Kwong Chow, and was under the impression that no licence was required in the Colony for a revolver without ammunition.

Detective Inspector A. H. Elston who prosecuted said that the police raided the Asia Boarding House on the night of May 13, and found defendant alone in the room. A revolver was found under the bed. Che had booked the room in his name.

### RUSTY BUT SERVICEABLE

Sergeant J. W. Scott, police armorer deposed that he examined the revolver the following day and found it to be a .45, five chambered revolver, stamped with the name "American Settler." It was of unknown manufacture and was not numbered.

"The gun is old and rusty but quite capable of being used," stated witness. "I also noticed when examining it that it had been recently fired but I cannot say how recently. It is similar to the type used in armed robberies in Hong Kong."

An interpreter of the Yawmat Police Station testified that accused said in answer to the charge "The revolver belongs to my friend."

### DEFENDANT'S VERSION

Giving his statement from the dock the prisoner said: "I came from Kwong Chow. Two friends of mine asked me to come down. My intention was to go to Swatow via Hong Kong. My two friends asked me to get a boat with them and stay with them in the Asia Boarding House. One of them was surnamed Ho and the other Chan. We three shared a room.

## APPEAL FOR BUILDING FUND

CHRIST CHURCH,  
KOWLOON TONG

To all who live in this Colony, the rapid development and growth of Kowloon Tong and Kowloon City as residential areas must be strikingly evident. To help towards meeting the spiritual needs of this growing district, a Sunday School was started in a private house early in 1933 with very encouraging results. In September of the same year, as an experiment, premises at 3, Duke Street were rented as a Church House and to accommodate the Sunday School. The Church House was hallowed by the Bishop, and services have been held regularly since, with increasing congregations. It is of interest to note that as far back as 1930 the Diocesan Conference predicted the necessity for Church extension in Kowloon Tong and Kowloon City, and results have proved that their opinion was correct.

Early in 1935, the whole position was carefully reviewed, and it was found that the temporary work under the charge of the Rev. N. V. Halward more than justified itself, and it was then that the decision was taken to build a permanent Church.

### GOVERNMENT'S HELP

The Hong Kong Government offered a site on Waterloo Road, large enough to contain a church, a parish hall, and a house for the priest-in-charge, and at the same time agreed to allow the sum of \$50,000, originally voted in 1925, as compensation for St. Peter's, West Point, to be expended in building a church on this site.

It has been decided to defer the building of the parish hall and priest's house for the time being, but building operations have already begun on the new church, to be known as Christ Church, Kowloon Tong, and it is expected that it will be opened for worship early in 1937. This church is designed on simple modern lines with a square tower, and will be constructed in reinforced concrete; it will have seating accommodation for about 250 persons. The following is an estimate of the cost:—

Site formation for whole area and piling for church only	\$14,000
Construction of church	43,000
Interior fittings and furnishing of church	8,000
	\$65,000

To supplement the \$50,000 grant by the Hong Kong Government, the sum of \$15,000 has to be raised. We appeal, therefore, to all those who value the work of the Anglican Church in Hong Kong to help in raising this sum of \$15,000. Donations may be sent to the Hon. Treasurer, Miss R. Mow Fung, c/o Messrs. Gilman & Co., Ltd., 44 Des Voeux Road Central, Hong Kong, and will be gratefully acknowledged.

E. W. L. Martin, Bishop's Commissary.  
P. S. Cassidy, Church of England Trustee representing St. John's Cathedral.

A. C. Jeffreys, Church of England Trustee representing St. Andrew's Church, Kowloon.

W. M. Barton, Chairman, Christ Church Building Fund Appeal Committee.

Ho said to me that he was going out to find a friend. Chan also said the same. They both said that they would be back shortly after 9 p.m.

In Kwong Chow before coming to Hong Kong Ho said to me "it will not be illegal to carry a revolver without ammunition down there (in Hong Kong) as we are only passing through."

Shortly after they had gone out the police raided the room. The police asked me how many people there were in this room. I said three. The room was booked in the name of Chan Pong, and my name is Che Mai Fel. I was detained in the police station and shortly after that Ho was detained.

The next morning I asked the police where Ho was and they said he was to be tried on the other side of the harbour and you will be tried this side of the harbour. I was not quite sure whether this was true or not. He is a friend of mine and I was naturally anxious about him.

The next morning when I was brought to this court for trial, I then learnt that Ho had been released and I do not understand it.

Defendant was committed to stand his trial at the next sessions.

## OBITUARY

Former Hong Kong  
"Taipan"

MR. R. M. DYER

Reuter yesterday cabled the news of the death of Mr. R. M. Dyer, C.B.E., B.Sc., M.I.N.A., at home, who was for 24 years Chief Manager of the Hong Kong and Whampoa Dock Co., Ltd., prior to his retirement in September, 1932.

A native of Glasgow and the son of the late Professor Dyer, who many years ago came out to Japan on a mission, the late Mr. Dyer was predeceased by his wife some time ago.

One of the most popular members of the local Scottish community, Mr. Dyer was on two occasions President of Hong Kong St. Andrew's Society. He particularly interested himself in the Scottish Company of the Volunteer Defence Corps, which he was largely instrumental in raising and equipping, and was a member of the Advisory Committee of the Corps. He also took a prominent part in the movement for the creation of killed Boy Scouts locally.

On the sporting side, Mr. Dyer was President of the Hong Kong Rifle League, Steward of the Jockey Club, a keen supporter of boxing, having been Chairman of the Boxing Association, and was President of the Hong Kong Football Association. He was also Chairman of a the Hong Kong Harbour Advisory Board. He was made a Justice of the Peace in 1913. Mr. Dyer went home on leave in June, 1932, and retired in September of the same year.

In the Birthday Honours in 1930, the late Mr. Dyer received the C.B.E. decoration and was heartily congratulated by the local community on his well deserved honour.

## FILIPINO FLIERS ARRIVE ON TIME

Safe Crossing Over  
China Sea

### TRIP TO MADRID

Antonio Arnalz and Juan de Calvo, Filipino aviators who are flying to Madrid from Manila, successfully negotiated the most dangerous hop of the trip when they landed at Kai Tak yesterday.

Due at the aerodrome about 4 o'clock the fliers were sighted beaming the Kowloon hills about 4.15 and landed in front of the hangar about 4.30.

They reported an "uneventful trip from Laoag in north Luzon, from where they started their ocean flight at 10.30 a.m. Weather was clear for the first part but nearing the China coast they ran into slight showers and clouds. They judged their navigation well, striking the coast a little to the south."

Their plane is a Swanson monoplane fitted with a super scarab engine and is named "Commonwealth of the Philippines."

Two bags of mail aggregating 15 lbs. and addressed to Hong Kong, were carried.

### FUTURE PLANS

Future plans are indefinite as the aviators will await instructions from Manila. They expect to be in Hong Kong for a few days however, as the flight is intended to be a leisurely one, and will possibly be entertained by the Filipino Club.

A large section of the Filipino community gathered at the aerodrome for the arrival, including Mr. L. R. Ildafonso, Prof. F. Gonzales, Ricardo Arnalz, brother of the aviator who came from Shanghai for the occasion, and Miss Pacita de los Reyes, Miss Philippines, 1929.

## CHILLS Weaken the Chest

### Take PEPS

BEWARE of sudden chills and colds! They leave you exposed to bronchitis and other serious chest weakness. Be wise, and at the first sneeze or shiver take Peps breatheable tablets. Peps are wonderfully soothing and healing. They soon destroy infection germs, end throat trouble and strengthen and invigorate the chest and lungs. Also for coughs, of all kinds, influenza, bronchitis, asthma, catarrh, etc.

#### BERLIN SHARE MARKET

("Hong Kong Daily Press" Special)  
 Berlin, May 28.  
 Business on the Sharemarket was more restricted than before, presumably because of the approach of Whitsun Holidays, which began on the Bourse on Saturday.  
 Such purchasing as was done was chiefly by foreign holders of blocked marks.  
 Fixed interest securities changed little. Dollar bonds were firmer, but turnover small. Call Money stood at 2 to 3%.

#### THE EXCHANGE MARKET

##### MESSRS. ROZA BROS.

Silver prices rose yesterday to the extent of 3/16 for Ready and 1/8 for Forward, the quotation being 19 15/16 for both deliveries. Silver advances attributed the rise to small offers. The market was steady. After the official fixing there were small Indian and Chinese inquiries with sellers at the fixed rate. In America the rate was unchanged at 44 3/4 for Spot. The London-New York cross rate was higher at 4.99 1/4. New York-London was higher at 4.99 3/8.

##### MARKET

Opened uncertain but later eased off owing to some demand.

##### STERLING

Business was done during the early part of the morning at 1/3 9/16 for cash followed by transactions at 1/3 17/32 for forward and near. The market closed at 1 p.m. with sellers at 1/3 1/2 for near and forward, buyers at 1/3 17/32 for any delivery.

##### U.S. DOLLARS

Opened with small sellers at 32 5/16, buyers bidding 32 3/8. Business was done later at 32 5/16 for cash and 32 1/4 June. The market closed at 1 p.m. with sellers at 32 1/4 May-June-July and 32 3/16 August-December, buyers at 32 5/16 for May-June-July and 32 1/4 August-December.

##### SHANGHAI DOLLARS

Sellers were quoted at 108 1/8 for cash, buyers at 108 1/4 for cash.

##### SHANGHAI MARKET

There were sellers of Sterling at 1/2 3/8 and U.S. Dollars at 29 7/8 for cash.

##### IN THE AFTERNOON

The market was quiet in the afternoon, the tone being a shade easier.

##### IN STERLING

Business was reported at 1/3 1/2 for near and forward, finishing with sellers at 1/3 1/2 May-October and 1/3 15/32 November-December, buyers at 1/3 17/32 for any delivery.

##### U.S. DOLLARS

A small business was done at 32 1/4 for June delivery. The market closed with small sellers at 32 1/4 May-June and 32 3/16 July-December, buyers at 32 5/16 May-July and 32 1/4 August-December.

#### H. K. STOCK EXCHANGE

##### YESTERDAY'S OFFICIAL QUOTATIONS

The market during the week under review was on the quiet side and the turnover was on a restricted scale. Prices in some cases gave way a little, which induced buyers to take more interest in some of the public utility counters.

The mining section was also quiet.

### NEWS FROM THE WATERFRONT

### Freight And Asiatic Passengers Returns

(BY LONGSHOREMAN).  
The freight returns, received from the Harbour Office during the 24 hours ended at 9.00 a.m. yesterday, showed a fairly high tonnage movement, a large proportion of which being made up by Japanese ships.

The total tonnage of general cargo carried by vessels to the Colony was 3,956 tons, with British steamers carrying 938 tons.

Through cargo for ports beyond the Colony amounted to 19,230 tons, of which 6,309 tons were carried by British steamers.

Asiatic deck passengers entering into the Colony during the 24 hours ended at 9.00 a.m. yesterday were 496, of which 389 were from British steamers.

There were altogether fifteen arrivals, of which seven were of British registry, the remainder being of other nationalities, while of the 15 departures, seven were British ships, the rest being of other different countries. Particulars as follows:—
